AIR SYSTEMS

*Proven, reliable and
always innovative.*

TRP® offers reliable aftermarket products that are designed and tested to exceed customers' expectations regardless of the vehicle make, model or age.

AIR DRYER CARTRIDGES

Tested. Reliable. Guaranteed.

Air Systems

Choosing the right replacement part or service for your vehicle—whether you own one, or a fleet—is one of the most important decisions you can make for your business. And, with tested TRP® parts it's an easy decision.

Regardless of the make you drive, TRP® quality replacement parts are engineered to fit your truck, trailer or bus. Choose the parts that give you the best value for your business. Check them out at an approved TRP® retailer near you.

The cross reference information in this catalog is based upon data provided by several industry sources and our partners. While every attempt is made to ensure the information presented is accurate, we bear no liability due to incorrect or incomplete information.

Product Availability

Due to export restrictions and market demands, not all products are always available in every location. Check for availability in your area with your local TRP® Distributor.

Parts for Trucks, Trailers & Buses

AIR DRYER CARTRIDGES

Part# AC1001
Air Dryer Cartridge replacement for Bendix® AD-SP®/AD-IS®

Part# AC2001
Air Dryer Cartridge replacement for Bendix® AD-9®

Part# AC3001
Air Dryer Cartridge replacement for Bendix® AD-IP®

FEATURES & BENEFITS

- » OE quality desiccant prevents air brake and suspension valve contamination
- » Proven canister crimping process passes pressure durability test of one million cycles

RELATED PARTS

- » Air Dryers
- » Governors
- » Air Compressors
- » Brakes

AIR DRYER CARTRIDGES

Trucks equipped with air brakes have an air compressor on the engine. The air compressor keeps air tanks full, so there is always air available to stop the truck. All air has a certain level of humidity, which means there is always water vapor in the atmosphere – no matter if you're in a dry or damp climate.

Air is heated as it is compressed and it cools as it travels through the discharge line to the air tank. This cooling results in condensation, creating pools of water in the bottom of the truck's air tanks. As a result, oil from the compressor and any contaminants that made it through the compressors air filter in the water might be found in the air tank. TRP® Air Dryer Cartridges eliminate water and contaminants from the air system.
